

**Charleston Southern University**  
**Christian Leadership Building**  
Charleston, South Carolina

Fulfilling the mission of the university to provide “Academic Excellence in a Christian Environment”, the school identified a need for a Christian Leadership Building. This new building has been designed as a two-story conference, lecture, classroom and faculty office building of 25,000 sq. ft. to be located in the center of CSU campus across from the new Science Center and adjacent to a major planned campus pedestrian spine. The design incorporates many sustainable design features, and materials which were selected to fit in with the context of the CSU campus. It features a two story gallery space to serve as pre-function space adjacent to the two large conference halls on the first floor with large openings of glass facing the central campus and adjacent walkway spine.

**Client**  
Charleston Southern  
University

**Cost**  
\$5.9M (est.)
